

Intel Architecture Platform Leadership

Albert Yu

Senior Vice President and General Manager
Intel Architecture Group

August 22, 2000

Intel® Itanium™ Processor Platform

- New Enterprise processor architecture
 - Transaction processing
 - Explicit parallelism
 - Scalability
 - Advanced error handling for high availability
 - 64-bit addressing

Itanium™ Processor Platform Momentum

- Over 6,000 prototype systems delivered to developers
- Beta OS and tools releases: Windows*, HP-UX*, Linux, AIX* 5L
- Key enterprise and technical applications running
- End user pilots in Q4'00

Pentium® III Xeon™ Processor Platform

- Announcing the first 1 GHz processor for the Enterprise
 - 256k L2 Advanced Transfer Cache
 - 133 MHz system bus
- Targeted at front-end servers, general purpose servers, and workstations
- Available today

Mobile Pentium® III Processor Platform

- The highest-performance notebook PCs with all the benefits of mobility
- Engineered for thin and light and full-size notebook PCs
- Intel® SpeedStep™ technology provides **choice and flexibility** for any mobile computing environment

Low Power Leadership

16 MHz

850 MHz

'90 '91 '92 '93 '94 '95 '96 '97 '98 '99 '00

- Integrated memory, bus, and cache controllers
 - CPU voltage reduction technology
 - Advanced Power Management
 - Smart Battery
 - SMBus
 - Intel Power Monitor
 - I.M.V.P.
 - ACPI
 - QuickStart™ technology
 - Intel® SpeedStep™ technology
 - ACPI 2.0
 - SMBus 2.0
 - Smart Battery Testing Guidelines

Power Tutorial

What Determines Battery Life?

Intel® Pentium® 4 Processor Platform

- Intel's highest performance processor for desktop PCs
- All new IA-32 micro-architecture designed to deliver breakthrough performance
- Launching Q4 2000

Introducing the Foundation for the Intel® Pentium® 4 Processor

The Intel® Pentium® 4 Processor Takes A Leap Forward, Delivering...

Summary

- Big: Itanium® processor platforms
- Cool: Mobile Pentium® III processor platforms
- Fast: Pentium 4 processor platforms

Power the Net with Intel Architecture Leadership Platforms
